- Malayalam (Intermediate)

PROFILE

I am a second-year B.Tech student specializing in Artificial Intelligence and Data Science at Karunya University. With a strong passion for AI-driven technologies and data-driven solutions, I am committed to developing innovative skills to address real-world challenges.

WORK EXPERIENCE

PHOTOGRAM

- Project Overview: Designed and implemented "Photogram," an app inspired by Instagram, blending social media and forum functionalities using PHP for the backend and HTML, Bootstrap, and JavaScript for the front-end.
- Backend Development: Utilized PHP to create user authentication, image upload and storage, comment and like systems, and database management with MySQL for efficient handling of user-generated content.
- Front-End Development: Built an engaging, responsive user interface with HTML and Bootstrap, enhanced with JavaScript for dynamic interactions, such as real-time updates, image previews, and comment handling.

PORTFOLIO

- Created a personal portfolio website using HTML, CSS, and JavaScript. Designed a responsive layout showcasing projects and skills with interactive elements. Deployed the website on Render for public hosting, ensuring smooth performance and accessibility.
